

INTRODUCTION TO ROWING CLASS 2010

Would you like to glide along the water in a human-powered rowing shell?

Start yourself rowing in our six-week Learn-to-Row class. You will become familiar with the basics of rowing and rowing safety. Following a land-based introduction, you will be on the water in a large flat-bottomed barge using one oar per person, progressing quickly through the program to smaller boats with two oars. Experienced coaches from LRC and MSU crew programs will guide you. You must be able to swim to take this class.
